THE HOUSE

Casa Zafiro sits on the largest garden lot in Peñas Arriba. It is built to shell stage, with delivery in about six months once the finishes are defined together with the practice.

ARCHITECTURE

Compact plan opening to terrace and garden; master suite on the main level.

SITE

Lot M1-L14, a 418 m² garden lot inside the gated community, with views of the center and the Parroquia.

MATERIALS

Built to shell — flooring, stone, carpentry and paint still to be chosen.

CONDITION

Shell complete; about six months to delivery once finishes are defined.

POTENTIAL

The plan and the site without waiting for a full build, and the level of finish set to the buyer's budget.

ROBERTO'S NOTES

The garden is the argument. It is the biggest lot in the community and the shell is already there; what remains is the part most owners enjoy deciding.
